

Trained Lymphedema Therapists in Manitoba

Highlighted therapists are LAM professional members.

The therapists listed here are trained in Combined Decongestive Therapy (CDT) and have graduated from a school that follows the Lymphology Association of North America (LANA) standards. Advanced therapy consists of Manual Lymphatic Drainage (MLD), compression, bandaging, education in lymphedema management, self care to promote lymphatic flow such as exercise/movement and skin care practices to prevent complications such as infections.

QUESTIONS YOU MAY CHOOSE TO ASK:

Do you treat (*my type*, eg arm, leg, head/neck) of lymphedema?

Do you need a doctor's referral?

What is the cost of your services? Do you direct bill to insurance companies?

Is your location wheelchair accessible (if applicable)?

What is the parking situation?

Are there any pets on the premises (if applicable)?

Do you provide mobile services (if applicable)?

Do you have any special training (if applicable)?

What should I expect on my first visit?

Notes:

LAM has adopted the definition of the Canadian Lymphedema Framework: "Certified lymphedema therapists are experts in assessing and treating lymphedema. They are nurses, physiotherapists, occupational therapists and massage therapists who meet the Canadian Lymphedema Framework's national training standards. To certify, lymphedema therapists train for a minimum of 135 hours with a recognized school." www.canadalymph.ca
