

PARTNER PROFILE

The Never Alone Foundation (NAF) is a nationally registered charity committed to improving the lives of people affected by cancer. It was founded by Winnipeg Blue Bomber Alumnus and former CFL Executive Lyle Bauer in 2004. Over \$1,000,000 has been donated to date towards cancer research, revitalizing the rooms of palliative care units, supporting a camp for children with cancer, and providing direct support to individuals and families, amongst many other activities.

One of the programs that the Never Alone Foundation has developed is a lymphedema support program for individuals with lymphedema caused by cancer treatments who are unable to afford the proper care required.

Please read more about NAF's efforts on their website at <https://neveralonefoundation.ca>

LAM is very appreciative of the work of the NAF, and especially for their support of individuals with lymphedema. Thank you to the Never Alone Foundation, its staff, Board members and all of its volunteers!
